

CFS2160 Week 8 Answer

1:

```
private String courseCode;

public String getCourseCode() {
    return courseCode;
}

public void setCourseCode(String courseCode) {
    this.courseCode = courseCode;
}
```

2:

```
public UniversityCourse(int courseID, String courseName, String courseCode) {
    this.courseID = courseID;
    this.courseName = courseName;
    this.courseCode = courseCode;
}
```

CFS2160 Week 8 Answer

3:

@Override

```
public String toString() {  
    return "UniversityCourse{" +  
        "Course ID=" + courseID +  
        ", Course Name='" + courseName + '\'' +  
        ", Course Code='" + courseCode + '\'' +  
        '}';  
}
```

4:

```
public static void main(String[] args) {  
    UniversityCourse uniCourse = new UniversityCourse(1, "CFS2160");  
    System.out.println(uniCourse.getCourseID() + ", " + uniCourse.getCourseName());  
    UniversityCourse cfm2175 = new UniversityCourse(2, "Computing Science & Mathematics", "CFM2175");  
    System.out.println(cfm2175.toString());  
}
```
