EMBEDDING QUIZLET SETS
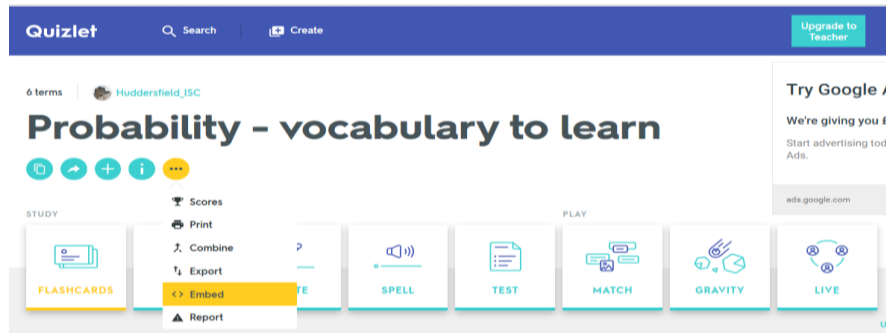

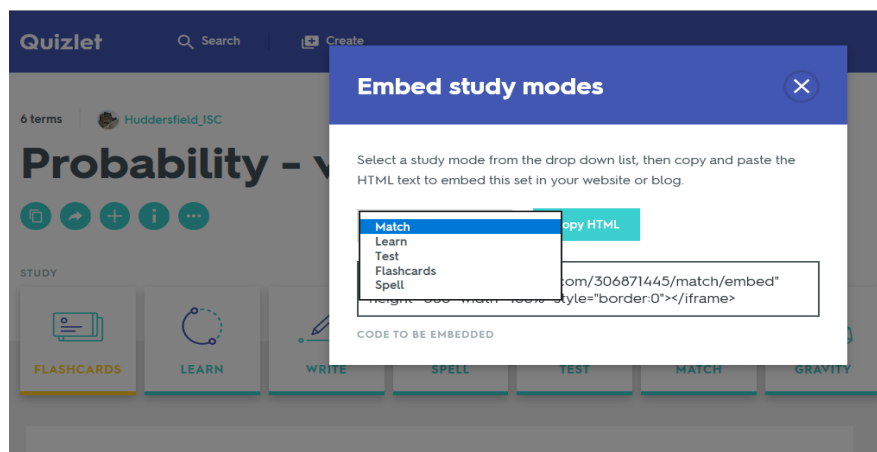

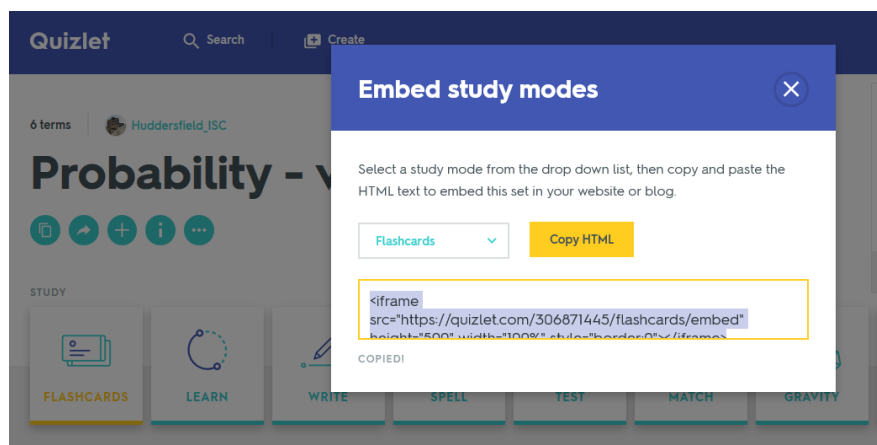

1   Go to the Quizlet set you want to embed and select the Embed option.

2   From the Embed drop-down menu select the mode you want to embed (e.g. flashcards, match, learn etc.).

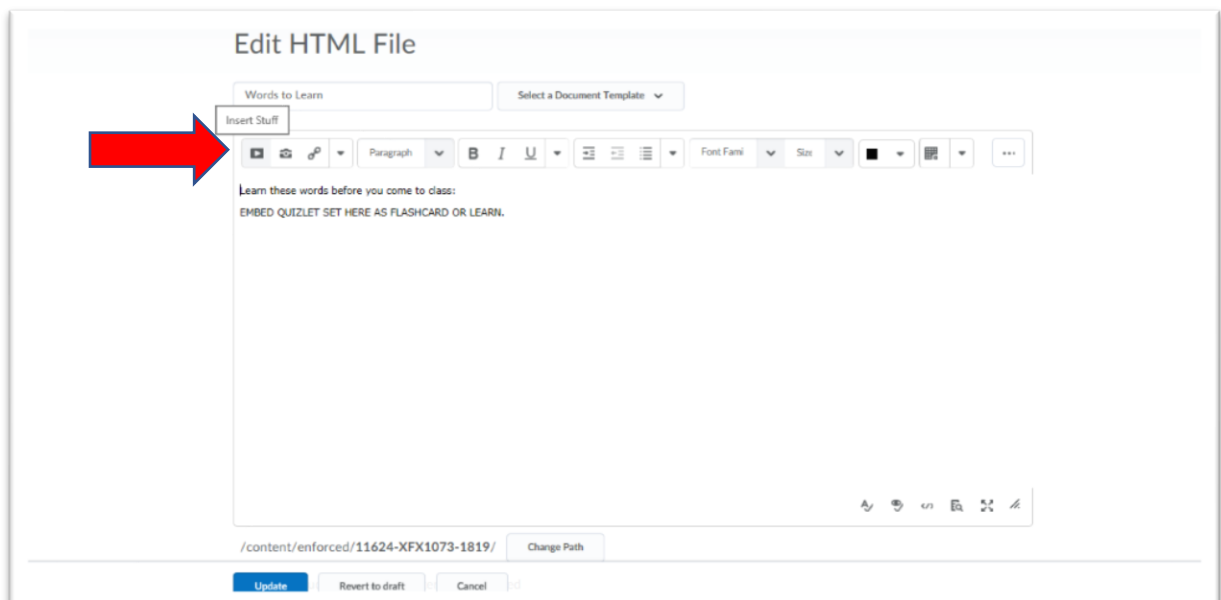

3   Copy the embed code.

4   Go to your Brightspace module and open the Words to Learn file where you want to embed the Quizlet set (if there is no such file, you will need to create one).
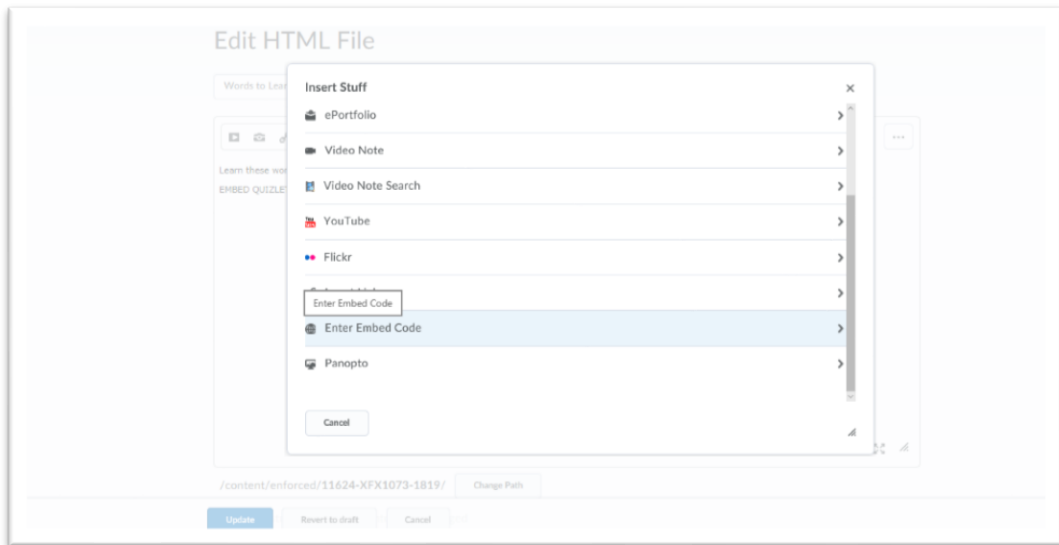

Click on the Edit HTML box to open the HTML editor.

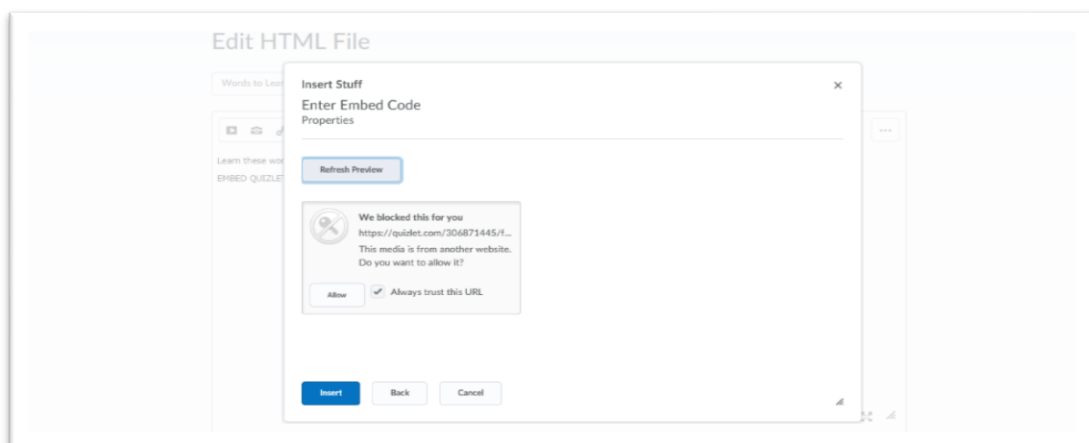

5   In the HTML Editor click on the Insert Stuff button.

6   From the Insert Stuff menu select Enter Embed Code.

7   Paste the Quizlet embed code you copied in Step 3 into the box and click Next.

8   Click Allow and then Insert.

9   Click Update. Your set is now ready.
